# THE ANALYTICS LIGHTHOUSE
STAT/CS 5525 Data Analytics I

By Lauren Fry

WHEN: September 20th, 5:30-7:30pm, 223 Engel Hall

The Analytics Lighthouse is intended to be a friendly, informal environment for posing analytics questions and receiving guidance from an analytics expert. **The Analytics Lighthouse provides student based, analytics teams (4-5 students) one-on-one discussion time with a "Data Guide".** Data Guides are meant to be a beacon of illumination that provide general guidance on challenging data analytics problems. All aspects of analytics (e.g. data management, methodology, computation) are discussable.

While Data Guides will help you navigate the data seas, via general guidance, guides will refrain from giving, high-level, problem-specific answers. **Discussion pertaining to the competition dataset(s) is welcome!**

ADDITIONAL NOTES:

- Food will be provided by (*To Be Announced*)

- **General Dynamics** will be in attendance, serving as Data Guides

- First competition dataset to be released **Monday, Sept. 18th**
